Subject: Coconino units - not working and non payment

Importance: High
Sensitivity: Confidential

Coconino County is withholding payment of \$618,986.70 because of problems with their units. Patti Hanson spoke to Judy and stated that Petros was currently working on the units and until they were all working 100%, no payment will be made.

This is the only Arizona county that has not paid us. Can someone give us a status as to what the problems are with the units, and how the repair on the units is coming. We would like to approximate when we can expect payment, or at least when we can again press Patti Hanson for payment?
