Darrell has many political and personal contacts and his presence and behind the scenes lobbying/information gathering, will certainly enhance whatever Robert and I will be able to accomplish. While we are working the floor, he will be working the halls.

The politicians and potential clients in LA are very proprietary and clannish. While friendly and accommodating, they respond very well to one of their own.

Mark and Robert,

Why do we need Daryl Hunt there?

Robert are you going? I don't remember you on the list but you need to because of LA.

Susan - I am not sure who is now responsible for shipping the PCM units. I have been told they are under the jurisdiction of McKinney. Anyway, we will need a PCM 100 and a PCM 500 for both the NASS Conference in New Orleans on July 15th, and the IACREOT Conference in San Antonio on July 16th.

The PCM's need to have voter cards, generic voter reg. data, and voter data (for voter card activation), and the passwords/precinct codes provided.
