- High-Speed Signature Capture
- Automated Side-By-Side Signature Verification
- Excellent References

Diebold Election Systems' VoteRemote Suite is the industry leader in absentee voting with millions of absentee ballot packets successfully mailed annually.

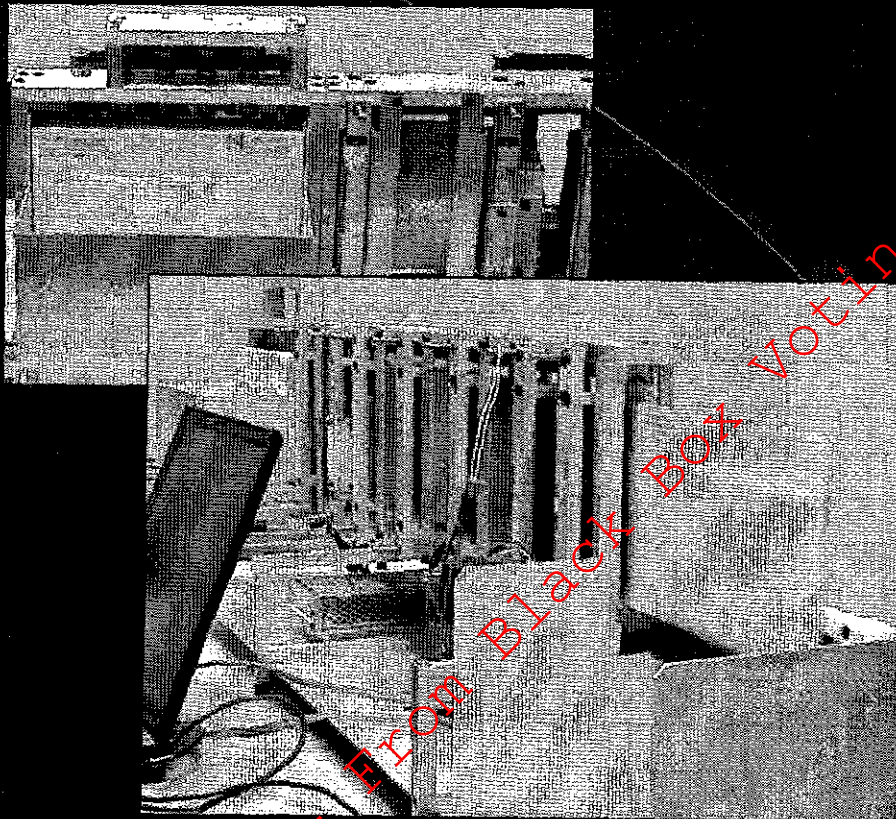

Diebold combines the latest in technology with a proven methodology. With a simple click of the button, data is processed according to jurisdiction's specifications.

Electronic Signature Capture and Verification of voter returned absentee packets are completed with single keystroke software — substantially reducing processing time and overhead.

Diebold works closely with the jurisdiction and their local USPS representative to ensure timely delivery at the lowest possible postage rate.
